

This load sheet is for both still and film/video usage. Trade terminology might be different to the well informed gaffer. What's listed is what's available and included in the Chroma day rate.. Not all of it can be moved to a location with our 24 ft. trailer: We might have to rent another truck. Unless otherwise specified by you, we try and bring enough of everything for the type of jobs we normally work on.

Chroma is ALL either: EDISON, #15 CAMLOK, #16 MINI-CAMLOK.

Chroma is NOT: stage pins, Mole pins, Bates, twist lock, etc.

Chroma 125 amp distro boxes are either: 120/240 volt, GFCI breakered, black, red, white, green color coding or 208 volt breakered, black, red, blue, white and green color coding

Chroma is: reversed ground based. We can “turn-a-round” the neutral if necessary.

Chroma transports equipment in a 24 ft., custom, trailer with a rear ramp.

Chroma will only load the trailer within the weight and balance restrictions. Normally, up to 5 tons of gear.

Chroma travels with equipment in hard or soft carts and cases. They vary from a senior taco cart to wire and cloth hampers on wheels.

ALL OF THE FOLLOWING ARE AVAILABLE FOR OUR DAY RATE EXCEPT WHERE NOTED.

HMI LIGHTS

- 2 LTM, 575 watt, HMI, Cinepar lights with doors, lenses, wire and electronic ballast with 50 ft. header cable each.
- 2 LTM, 1200 watt, HMI, Cinepar lights with doors, lenses, wire and electronic ballast with 15 ft. header cable each. 50 ft extra head cables as well.
- 2 LTM and Cinemills, 2500 watt, HMI, Cinepar lights with doors, lenses, wire and electronic ballast with 100 ft. header cable each.
- 2 LTM, 4000/2500 watt, HMI, Cinepar lights with doors, lenses, wire and electronic ballast with 100 foot header cable each.
- 3 Cinemills and Desisti 12K, HMI, Fresnels with wire scrim, Power Gems electronic ballasts and 50 ft. head cables.. **THESE LIGHTS ARE AN ADDITIONAL COST AND NOT PART OF THE CHROMA DAY RATE PACKAGE.**

STANDS AND MOUNTING

- 3 High weight bearing stands: Molevator (14 ft), Roadrunner (11.5 ft), Super Crank-O-Vator (11.5ft)
- 10 Hi rollers with wheels (18 ft.).
- 5 Hi boys (10-14 ft.).
- 31 C+ stands with turtle base (9 ft.)
- 16 Grip heads with 40" extension arms.
- 10 Mini C stands with bases.
- 2 4 x 4 rolling flat bases with junior pin receptacles.
- 5 Mole rolling stands with junior receptacle
- 4 24" stand extensions.
- 5 Baby triple headers.
- 4 Bogen auto poles with extensions.
- 10 Stud adapters.
- 1 Crows foot.
- 2 Studded C clamps.

- 4 C clamps.
- 2 Tube hangers.
- 2 Furniture clamps (3 ft. and 5 ft.).
- 8 Mafer clamps.
- 6 Matthellini clamps.
- 1 Mafer clamp with extended magic finger.
- 2 Gaffer grips.
- 4 4 1/2" grip heads on junior pins (lolipop).
- 5 Pancake bases with studs.
- 1 Flex arm.
- 40 Pony clamps of various sizes.
- 5 Scissor clamps.
- 1 Putty knife with stud.
- 1set Speed rail pipes in lengths from 2-20 ft.
- 1set Speed rail unions from stiff to flexible.
- 1set Speed rail junior and 5/8 pin clamps.
- 25 20# sand bags.
- 15 35# sand bags.

JIB, DOLLY AND TRACK

- 1 Jimmy Jib Triangle to 35 ft high and 30 ft. reach. Includes: hot, Dutch head, Daybrite HD color and hi res. green monitors, NTSC remote viewing. When used for live tv, we carry intercom units that patch into the camera for the shooter and assistant to hear the truck and each other. It is tough to set this up and light at the same time so more help is needed if this goes out with the rest of the equipment.
- 1 Jimmy Jib III in manual, 6 ft, configuration with rolling base. This takes your fluid head for for a camera mount.
- 1 Norms doorway dolly with tires, all wheel steering and Matthew's Bogie wheel frames for

smooth tracking.

- 1 Matthews Western Dolly with tires and push bar. Generally used for Jimmy Jib when required.
- 1 Mini-dolly 18"x 24" that will ride on collapsed straight dolly track.
- 1 160 degree curve specifically meant for the mini-dolly.
- 4 Sections of curved track in a 20 ft. circle style.
- 4 Sections of straight track in 8 ft. expanded lengths.
- 75 Wedges.
- 5 Apple box sets (full, 1/2, 1/4, 1/8).
